
MAY 2022 BRADFORD BULLETIN

As April is ending and May is beginning, everything looks so green and fresh around Bradford Village. You can smell spring in the air.

In April, there were about 15 village volunteers that looked over the interior of the clubhouse and made recommendations for updates, improvements and repairs. Several items can be completed by volunteers. Some work will require professionals. This will be an ongoing project the next few months and will continue for a year or two. Some of the work will happen in the next few months and other items will take longer - Leslie Collins will have occasional meetings and will keep us informed. We will appreciate any volunteers to help.

To keep all updated on the Fiber Optics with the high speed internet - they are nearing the completion of the back side of Andre Michaux Rd (even number houses). Installation for the rest of the village will be ongoing. The leaders of NTInet have stated that as they finish each section completed - that this section will be set up to start benefiting from this great service. This will give us the internet speed large cities receive.

As you will see from the photo, the seeds and vegetable plants are starting to grow. Most of the garden has been planted by several residents. The gardeners have planted tomatoes, corn, cucumbers, lettuce, okra, cabbage, collards, eggplants, squash, spinach, beets, beans, onions, watermelons, cantaloupes and more.

Thankfully Submitted, Harold Wright, President for the board
